

Paper Covered Stacking Storage Boxes

 [view larger](#)

[Print](#)

These charming paper-covered boxes will help you keep your home organized in every room! Use your scrap book supplies and imagination to make each box different.

Skill Level: Beginner 

Time to Complete: 3 hours

Tools Needed:

- [12" x 18" Self-Healing Rotary Mat \(RM-CG\)](#)
- [45mm Deluxe Ergonomic Rotary Cutter \(RTY-2/DX\)](#)
- [6" x 12" Non-Slip, Frosted Advantage™ Acrylic Ruler: "The Traveler" \(QR 6 x 12\)](#)
- [7" Stainless Steel Scissors \(SCS-2\)](#)
- [Rotary Circle Cutter \(CMP-3\)](#)

Materials Needed:

- Set of stackable boxes
- Double-sided scrap book paper
- Chip board letters, tags and embellishments

Instructions

1. Instructions for all boxes – boxes will vary in size and shape so no cutting measurements are given.
2. Crop paper to fit sides of box using 45mm rotary cutter, ruler, and mat. Measure the perimeter of the boxes with a fabric tape measure, piecing the paper together as needed.
3. Using a decorative blade, ruler and mat, cut coordinating paper to create a "rick-rack" look. Apply to the sides of the lids or as joiners if paper isn't long enough to fit around your box.
4. Cut lid piece using the 45mm rotary cutter straight blade. If the lid is round, use the Circle Cutter, remembering that the cutter measurement is half the diameter of the circle.
5. Apply glue to the back side of the paper and attach to the box.
6. Ink edges of box and paper with a chalking ink pad.
7. Instructions for Tags: Using the straight blade, decorative blades or circle cutter, cut tags, any size.
8. Add different cuts of paper using your decorative blade, applying behind the tags or on top to create different sizes.
9. Ink edges and then glue pieces together.
10. Embellish with stickers, chipboard, fibers or ribbon.
11. Punch holes through the tags and the boxes and tie on to the box. Embellish with fibers.
12. Use glue dots to hold tags or labels on to the front of the boxes or lids.
13. Tie ribbon or fibers on the labels before attaching to the boxes.
